

Tork® Matic II Dispensing System

Tork® Matic II

Mechanical, Hands-free Dispenser Featuring:

- Attractive, hygienic design
- Efficient operation
- Ease of use
- Reliable performance
- Cost-effectiveness

Tork® Matic II

Tork Matic II Delivers Hygienic, Hands-Free Service in High-Use Areas

At the touch of a single towel, Tork Matic II users have the assurance of optimal hygienic paper towel dispensing, with a greatly reduced risk of cross-contamination.

That's because the Tork Matic II is a portion-controlled, mechanical hands-free dispensing system for roll towels that operates without a handle, crank or lever. You only touch the towel you use. It is designed to serve patrons quickly and safely by presenting a new towel after the previous one is dispensed. The user-friendly Tork Matic II keeps lines in high-traffic restrooms moving quickly and eliminates crowding in office, industrial, healthcare and foodservice settings.

Tork Matic II also reduces the number of roll changes needed, which adds up to big savings in maintenance costs. This high-capacity dispenser reduces waste by ensuring that all of the towels are used.

Tork Matic II is an ideal solution for virtually any high-traffic restroom or wash station.

Here's a short list of long-lasting benefits:

Hygienic Excellence

Cleanliness counts and the Tork Matic II dispensing system helps reduce the risk of cross-contamination.

Superior Reliability

Tork Matic II is built with precision and attention to the highest quality standards.

Controlled Consumption

One sheet is dispensed at a time, discouraging overuse.

Reduced Waste

The entire roll is used, thanks to the stub roll feature.

Effortless Dispensing

Easy-to-pull towels are dispensed smoothly... every time.

Easy Maintenance

The see-through window indicates when it is time to refill.

Loading Convenience

Automatic paper-feeding features make loading easy.

Smooth Design

The Tork Matic II can be cleaned with a simple wipe-down.

“Tork Matic II has widespread appeal. We’ve installed it in healthcare facilities, as well as industrial plants. It’s such a compact dispenser compared to a lot of the other dispensers on the market that it can fit just about anywhere.”

Kevin Burke, President of Retailers Supply, a distributor located in Indiana

The Tork Matic II gives you flexibility...and economy

For added cost savings, the same towel rolls used by Tork Matic II can be used in two other Tork dispensing systems – the electronic, “no touch” Tork Intuition II and the Tork Matic WT (Water-Tight). As a result, the right dispenser can be installed for the right application, without the need to manage more than one type of refill.

Tork Intuition II

Tork Matic WT

The Tork Matic II requires only three simple steps to load and operate:

1. Move Stub Roll

Drop stub roll to the lower compartment so the entire roll can be used.

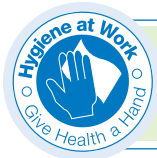

2. Load

Convenient paper feeding mechanism makes loading easy.

3. Pull Towel

You only touch the towel you use for improved hygiene.

Your patron gets a clean, fresh towel each and every time — without having to touch a button, crank or lever.

New premium quality towel available

There are three choices of quality towels available for the Tork Matic II and the Tork Matic WT:

- **Plus:** A premium, quick-absorbing, thicker paper towel with improved softness and strength that feels like cloth. It is ideal for use in Class-A office buildings and upscale dining facilities.
- **Standard:** Absorbent, high-quality white paper towel for everyday use.
- **Basic:** A traditional, high-quality natural paper towel for everyday use.

Choose the roll towel that best meets your facility's needs. All three towels can be used in any of the following dispensers – Tork Matic II, the Tork Matic WT (Water-Tight) and the electronic Tork Intuition II.
